According to my knowledge John's guidance is correct The number should be prefaced by SHC (SHC 3.1.4.5).

Subject: Re: One question regarding the ORD QARF

Jack:

APM is annual performance measure and APG is annual performance goal. These are defined for work under ORD plans through 2011. We have an entirely new plan in 2012. The current work plans assign the work you intend to send to the STREAMS contract to the Sustainable and Healthy Communities Research Plan. The specific task # is identified in cell B99 of the attached. As I understand it, the task # will replace the APM and APG numbers.

Fran, Jim and Trish;

Please look this over and let us know if what I have told Jack is not correct.

John

Subject: One question regarding the ORD QARF

John,

Under *II General Information of the ORD QARF*, next to the ID Number, there is a block - "APM/APG".

I have difficulty of getting a definition for APM or APG. Can you help?

How to fill that block for the "Failure analyses of UST equipment in biofuel service" project? As you know we are in the process of routing the PR for a Task Order tagging on the existing ORD STREAMS2 contract. Thank in advance. Jack
